PROFESSIONAL SUMMARY

Final-year Computer Engineering student at VESIT (Mumbai University, CGPA 7.5/10), graduating June 2026. Experienced in full-stack web development, cloud computing (AWS), and REST API development. Demonstrated ability to build production-ready applications using Python, Java, JavaScript, and AWS services including Textract, Comprehend, and Translate. Seeking an entry-level Software Developer, Full Stack Developer, or Cloud Engineer role to contribute from day one.

EDUCATION

B.E., Computer Engineering — Mumbai University CGPA: 7.5 / 10 | Expected June 2026
Vivekanand Education Society Institute of Technology (VESIT), Chembur, Mumbai

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems (SQL), Web Development, Object-Oriented Programming

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C++

Frameworks & Libraries: REST API, RESTful Services, Node.js (basic), Android SDK

Cloud & DevOps: AWS (Textract, Comprehend, Translate, S3), Firebase, Git, GitHub

Databases: MySQL, Firebase Realtime Database

Tools & IDEs: VS Code, IntelliJ IDEA, PyCharm, Android Studio, Postman, Excel

Methodologies: Agile, Scrum, OOP, Data Structures & Algorithms (DSA), API Development

Soft Skills: Leadership, Team Coordination, Communication, Adaptability, Time Management

INTERNSHIP EXPERIENCE

App Development Intern | [Samarth Softech](#) — Navi Mumbai Nov 2023 – Dec 2023

- Developed a fully functional Android game application using Android Studio and Java, integrating game logic and user interface components.
- Integrated Firebase Realtime Database for real-time data synchronization and Firebase Authentication for secure user login and registration.
- Collaborated with senior developers on code reviews, following Agile sprint cycles to deliver features on schedule.

Business Analyst Intern | [Viama Infratech Pvt Ltd](#) — Navi Mumbai Dec 2024 – Jan 2025

- Gathered, documented, and analyzed business requirements for construction project initiatives, creating structured requirement specifications.
- Prepared detailed project reports and dashboards using Excel and PowerPoint, supporting data-driven decision-making for management.
- Supported project planning, documentation, and cross-team coordination using Agile and Business Analysis (BA) practices.
- Tracked project milestones using task-management tools, improving visibility of deliverables for stakeholders.

ACADEMIC PROJECTS

Readify — AI-Powered Image Text Analyzer — AWS Textract · Comprehend · Translate · Python · REST API March 2025

- Built a cloud-native web application that extracts and analyzes text from uploaded images and scanned documents, reducing manual data entry effort.

- Integrated Amazon Textract for OCR-based text extraction achieving high accuracy on structured documents; connected Amazon Comprehend for NLP-based sentiment analysis (positive/negative/neutral).
- Implemented multi-language translation using Amazon Translate, supporting 10+ languages to serve diverse user demographics.
- Designed and deployed secure RESTful APIs with asynchronous processing, ensuring scalable performance and data security on AWS infrastructure.

Journey Jennie — AI Travel Planner App — *Android · Dialogflow · Third-Party APIs · Firebase* April 2025

- Developed a cross-platform mobile application enabling users to plan fully customized travel itineraries based on budget, travel dates, and group size.
- Integrated 360° virtual tour module for heritage and tourist destinations, increasing user engagement with immersive pre-visit experiences.
- Implemented AI chatbot functionality using Dialogflow (NLP) for real-time answers to travel FAQs and booking assistance.
- Connected third-party REST APIs for live hotel, flight, and activity booking, enabling end-to-end itinerary completion within the app.

Turf Booking Website — *JavaScript · MySQL · Razorpay API · HTML/CSS* November 2023

- Built a dynamic full-stack web application for local turf bookings, featuring role-based portals for users and admins.
- Implemented secure user authentication, turf search with advanced filters, and real-time time-slot availability display connected to a MySQL database.
- Designed an admin dashboard for managing listings, tracking bookings, and monitoring revenue with reporting features.
- Integrated Razorpay Payment Gateway API for seamless and secure online payment processing, supporting multiple payment methods.

ACHIEVEMENTS & LEADERSHIP

- **E-Sports Team Manager — Nex Hunters Esports:**
- Managed a competitive Valorant e-sports team, overseeing team coordination, training schedules, and tournament participation for 6+ players.
- Led strategic planning and post-match performance reviews, achieving top placements in community and semi-professional tournaments.
